SUMMARY

Front-End Developer with 3 years of experience building responsive, accessible, and user-focused web applications. Proficient in React.js, Next.js, TypeScript, Vue.js, and modern front-end ecosystems. Adept at transforming UI/UX designs into clean, maintainable code, integrating APIs, and optimizing performance. Known for strong collaboration, critical thinking, and attention to detail. Passionate about delivering scalable and dynamic web experiences with a commitment to clean code and best practices.

WORK EXPERIENCES

Front-End Developer, Masa International Group (Dec 2024 - Present)

- Collaborated on multiple dynamic CMS-based web projects with custom Control Panels.
- Delivered Arabic/English multi-language support with RTL layout consideration.
- Worked in a high-performance development team, contributing to at least 3 large-scale projects.
- Applied component-driven architecture and reusable UI strategies for scalability.
- Built dynamic dashboards with charts, modals, and progress bars.

Front-End Developer, Not Found Agency (Jan2024 - May2024)

- Developed responsive UIs using React and Next.js with a focus on user experience.
- Built dynamic dashboards with interactive features such as charts, modals, and progress bars.
- Integrated REST APIs with optimized data handling including pagination and error states.
- Implemented keyboard navigation and modular CSS for accessibility and maintainability.

Front-End Developer, Ebda (Feb2022- Aug2022)

- Focused on responsive UI design and cross-device compatibility using modern frameworks
- Contributed to API integration, enhancing frontend-backend communication
- Worked closely with UI/UX designers, mobile developers, and backend teams to deliver unified products.
