## SUMMARY

Front-End Developer with experience building and optimizing scalable, high-performance web applications in both corporate and freelance environments. Strong expertise in React.js, Next.js, Vue.js, Nuxt.js, and TypeScript, with a focus on developing responsive, accessible, and maintainable user interfaces. Proven ability to translate complex UI/UX designs into pixel-perfect implementations and improve application performance, including reducing load times by 30%. Experienced in collaborating with cross-functional teams and delivering reliable solutions throughout the full development lifecycle.

## WORK EXPERIENCES

**Front-End Developer** Petrolife.Egypt|Onsite **Apr 2026 - Present**

**Tech stack:- React.js, TypeScript, Tailwind CSS, Firebase, i18next, WebSockets.**

- Owned front-end for a multi-tenant fuel-ops platform across 3 roles and 100+ routes (fleet, wallet, stations, invoices, subscriptions, admin).
- Integrated dozens of REST /api/v1 APIs for auth, wallet, banks, documents, and orders; hardened Firebase Storage upload/download.
- Configured 3 environments (local / test / prod) with separate Firebase + API targets and full AR/EN i18n (~80 namespaces).
- Leading next-phase subscription features and WebSocket realtime notifications (live updates, admin/special alerts, in-app UX).

**Front-End Developer** MonetizerEngine.United States|Remote **Mar 2026 - Aug 2026**

**Tech stack:- React.js, TypeScript, Tailwind CSS, shadcn/ui, Tanstack**

- Built and iterated on dashboards and landing pages using Lovable's front-end stack, focusing on responsive UI and fast delivery.
- Integrated GoHighLevel as the backend for messaging and notifications, connecting user-facing flows to campaign and alert workflows.
- Delivered client-ready web experiences end-to-end—from layout and components to messaging/notification workflows via GoHighLevel.

**Front-End Developer** Masa International.Thailand|Remote **Dec 2024 - Aug 2025**

**Tech stack:- Vue.js, Nuxt.js, Bootstrap, Pinia, Typescript**

- Collaborated on multiple dynamic CMS-based web projects with custom Control Panels.
- Improved page load times **by 30%** through performance audits and code optimizations.
- Applied component-driven architecture and reusable UI strategies for scalability.
- Built dynamic dashboards with charts and progress bars, transforming complex datasets into intuitive, user-friendly visualizations.

**Front-End Developer** Not Found Agency.Egypt|Remote **Jan 2024 - May 2024**

**Tech stack:- React.js, Next.js, Sass, Redux,Typescript**

- Developed responsive UIs using **React.js** and **Next.js** with a focus on user experience.
- Built scalable dashboards using React and Next.js with reusable components (charts, modals, progress indicators), improving data visibility and user interaction
- Integrated REST APIs with pagination, loading states, and error handling, improving performance and user experience across large datasets.
- Implemented keyboard navigation and modular CSS for accessibility and maintainability.

**Freelance Front-End Developer|Self-Employed** **Sep 2022 - Dec 2023**

- Delivered custom web applications for diverse clients, managing the full development lifecycle from concept to deployment.
- Translated client requirements into responsive, high-performance user interfaces and ensuring 100% cross-browser compatibility.
- Optimized existing codebases for clients, improving Core Web Vitals and SEO performance by implementing best practices in Next.js.

**Front-End Developer** Ebda Company.Egypt|hybrid **Jan 2022 - Jun2022**

**Tech stack:- React.js, Bootstrap, Redux, MUI**

- Achieved 100% cross-browser compatibility and mobile responsiveness across 3 major product lines using Bootstrap and MUI.
- Contributed to API integration, enhancing frontend-backend communication
- Worked closely with UI/UX designers, mobile developers, and backend teams to deliver unified products.

---

## Key Skills

**Technical Skills:**

- Languages & Frameworks: HTML5, CSS3, JavaScript (ES6), **TypeScript**
- Libraries & Frameworks: **React.js**, Redux, **Next.js**, **Vue.js**, Nuxt.js, jQuery
- Styling: Tailwind CSS, Bootstrap, Sass, Material UI, Ant Design
- Tools & Utilities: Git, GitHub, Gulp.js, Jest
- Concepts: OOP, Design Patterns, Performance Optimization, Documentation

**Soft Skills:**

- Communication, Problem Solving, Team Collaboration, Time Management, Adaptability, Critical Thinking

---

## EDUCATION

**Bachelor's in Computer Science and Information**

Faculty of Computers and Information, Egypt (2016 - 2020)
